

Tic Tac Toe Game II

The program shall detect wins automatically and display an appropriate message, e.g.

```
A B C
0X|X|X
 -+-+
1 |O|
 -+-+
2O| |
Congratulations, player 1, you won!
Command:
```

Also the program should display whose turn it is, e.g.:

```
A B C
0X|X|
 -+-+
1 |O|
 -+-+
2O| |
Your turn, player 1.
Command:
```

If the play has been finished (either by winning it or by filling all game board fields), this message should not be shown, though.
